

COPY OF PAPERS  
ORIGINALLY FILED

SERIAL NO: 09/749,092

DATE OF NOTICE OF ALLOWANCE: 12/10/2001

**PATENT  
IN THE UNITED STATES PATENT AND TRADEMARK OFFICE**

In re Application of:

Klein, K.

Serial No. 09/749,092

Filed: December 27, 2000

For: Concentrate Suitable for the  
Preparation of Cathodic Electrodeposition  
Coating Compositions

Art Unit: 1741

Examiner: K. Mayekar

Atty. Docket: FA0945 US CNT

Assistant Commissioner for Patents  
Washington, D.C. 20231

Sir:

**AMENDMENT UNDER 37 CFR 1.312**

Please amend the claims as follows:

*OK to enter*  
*4/22/02*  
*BC*  
Claim 9. (amended) The concentrate of claim 1, wherein the cross-linking component is neutralized with acid.

*B2*  
Claim 16. (amended) A process for compensating the solids of a cathodic electrodeposition coating bath, comprising the steps of adding the components of the concentrate of claim 1 to the bath as refill material.

Please add the following claims.

*B3*  
Claim 17. A method for forming a cathodic electrodeposition coating composition which comprises diluting the two component concentrate of claim 1 with water.

*16*  
Claim 18. A method for forming a cathodic electrodeposition coating composition which comprises diluting the two component concentrate of claim 1 with water to a solids content of 10 to 30 wt-%.

**REMARKS**

The reason the claims were not presented earlier is that when the allowed claims were sent to the inventors located in Germany for review, the above amendments were noted and additional coverage was desired for formation of a
